Presentation

Symptoms	acne proble
Medication	
Vitals	HR 90.0, BP 50.0, Temp 36.7, SpO2 -

AI triage assessment

P(ADE)	0.72 (biobert)
Prediction	ADE detected
Severity	mild
Triage band	High ? urgent review [P1]
Recommended action	Priority clinician review ? escalate
Domain	formal

Key driver words (explainability)

acne (+0.54), proble (-0.40)

Similar precedents (FAISS)

[0.71 - ADE - Informal (Cadec)] Very rough on my stomach.

It does not matter if I take it with food or not.

Voltaren Gel rub is great though!.

[0.68 - ADE - Informal (Cadec)] Got shingles, and was told by a doctor the shingles resulted from the depletion of CoQ10 caused by the Lipitor.

A research article in JAMA, 2004;291:2243-2252 concludes this:.

[0.67 - ADE - Informal (Cadec)] With this one it just makes me a little drowsy!.
